

## 12. DERS: ŞEDDE

س س س

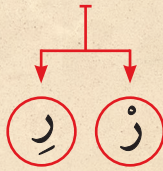

Şedde mutlaka bir hareke ile birlikte bulunur ve bulunduğu harfi bir önceki harf ile birleştirip sesi bölmeden tekrar okutur. Bu durum, Türkçemizde iki sessiz harfin yan yana gelmesine benzer. (Sıhhat, dikkat, kulluk, bellek, cennet vb.)

Aşağıdaki tabloda şeddenin oluşumunu ve işlevini, uzman rehberliğinde inceleyiniz.
